

SmartFork® Laser

Targeting made easy

Features / characteristics SmartFork® Laser

-  Precise targeting of pallets and loads **even with loaded cargo**
-  Safe loading
-  Simple load pick-up in the warehouse
-  Less damage to the transported goods

-  Laser safety class 1M, no risk of eye injuries
-  Laser available in red or green, depending on the surrounding conditions
-  Integration into the lift trucks's height control system possible (only wired version)
-  Minimum tip thickness only 1"

Clear laser projection onto the central block of the load carrier

Scope of supply

- ▶ 1 SmartFork® incl. laser
- ▶ 1 fork as counterpart
- ▶ **Energy supply:** Wired via electrical system

For even higher safety we recommend the combination with: SmartFork® FrontCam / SmartFork® SideCam.
